

EcoTek[®]

**NITRILE GLOVES WITH
SUSTAINABLE TECHNOLOGY**

What is...

EcoTek[®]

EcoTek is SW's patented, environmentally sustainable glove formula. EcoTek is manufactured sustainably and rigorously tested per the ASTM D5526 standard*. EcoTek is useful for all glove users and industries as it reduces emissions when incinerated.

Our formula has been proven to produce 7% less CO₂ (Carbon Dioxide) emissions, 55% less NO₂ (Nitrogen dioxide) emissions, 81% less SO₂ (Sulfur Dioxide) emissions, 56% less TVOC (Total Volatile Organic Carbon) emissions, and 48% less CO (Carbon Monoxide) emissions during incineration compared to regular nitrile gloves.

*EcoTek gloves tested to ASTM D5526-12 Standard Test Method for Determining Anaerobic Biodegradation of Plastic Materials Under Accelerated Landfill Conditions. Results are 92.6% biodegradation in 60% solids landfill at 945 days. Future results cannot be predicted/extrapolated. If you need more information on the test reports, send email to cs@swssglobal.com.
