DRY / WET / OIL TORQUE GRIP TEST COMPARISON

■ DRY ■ WET ■ OILY

Grip Performance of TracTek grip gloves were compared with that of competitive gloves of similar thickness, for dry, wet and oily conditions. ASTM F2961, the standard test method for characterizing Dry Grip Performance of gloves using a torque meter, was used for this comparison. The same method was modified accordingly to employ in wet and oily conditions.

TracTek Grip Technology
Embossed pyramid tread pattern maximizes liquid dispersal and surface friction for superior wet or oily grip performance.
