

TotalForm®

BIOBASED GENERAL PURPOSE PROTECTION

WHAT IS BIOBASED?

Biobased materials & products are derived from renewable biological sources such as plants, animals, microorganisms and biogas derived from waste, sewage.

In the manufacturing of biobased materials/products, portion of the feedstock is taken from biological sources and blend it with fossil-based feedstocks. Biobased materials are used in a wide range of applications, including packaging, textiles, building materials, medical devices and more.
